

We need this to continue this vital mission

The next phase

المرحلة القادمة

We need this to continue!
In Saudi Arabia and Abroad We need this to continue!
Your Royal Highness: Scouts the world over are ready, they have listened to your message, and want to follow you. They are proud to be Messengers of Peace! The message of the Kingdom's Vision 2030 has reached young leaders the world over –and particularly in the Kingdom of Saudi Arabia. **We are ready to act!**

Ambitious Future

Scouting has a strategy for the future of Messengers of Peace. We know what the strengths are and we know how we can make it even better. The three areas to keep building are:

1. Inspiring Messengers of Peace – 23.5 million Messengers of Peace in the world, in the next ten years we want to take it to 100 million.
2. Special projects – 99.9% of Messengers of Peace projects are locally funding. Messengers of Peace will support those projects in poorer countries or at times of disaster.
3. Capacity Strengthening – There are 164 National Scout Organisations (NSO's) – autonomous NGO's. The NSO's in poorer countries will receive support to do even better.

Active Citizenship
The network of 23.5 million active citizens brought together by Messengers of Peace, are a powerful force for positive change. They don't act because they are asked to, they don't act because they are paid to, they don't act for any recognition...they act because they want to and because they feel it is their responsibility to lead. This is volunteering, and Messengers of Peace is inspiring the next generation of volunteers, thanks to the two Kings, this inspiration will be continued.

We can do it!

نحن نستطيع فعلها!

Strong Foundations

Messengers of Peace is ahead of schedule, millions of Scouts around the world responded quickly following the launch of the initiative in 2012 and the results are astounding. Over the first five years of Messengers of Peace Scouts have taken it to their hearts and have made it their own. We can look to the future from a position of strength, on strong foundations. And the impact of Messengers of Peace can grow even further!

1.5 million

1.5 million Local Communities Worldwide

About half of the 1.5 million Scout groups globally have been able to join the Messengers of Peace initiative in a meaningful way. From the poorest communities, such as this one in Manila, Scouts have helped to bring hope to the people who the world has forgotten. With hope, young people grow and flourish, and in turn take leadership for themselves ... and change their world for the better – thanks to Messengers of Peace!

Leadership

Leadership

As the world's most effective leadership development organisation, Scouting has been creating brilliant leaders for over 100 years. These leaders develop through learning by doing and peer education. Messengers of Peace has globalised this peer support network to 23.5 million active Scouts. So, this Rwandan Scout, as a Messenger of Peace, can now inspire, not only his friends locally, but through MoP social media, he can reach out to new friends across the globe.

قيادة

Ready for action

Ready for Action! (NEPAL)
Action when it's needed most! Nowhere has this transformation impacted more than on communities coping with disasters. Thanks to Messengers of Peace, when disaster strikes, Scouts are inspired to act. A local Scout group doesn't need to wait until foreign aid workers fly in, Scouts are there, already to dig with their bare hands through an earthquake damaged building, wade through floods, or brave the cold of a snowy winter storm –to save the most vulnerable members of their own communities. In Nepal, Haiti, Ecuador, Turkey, Syria, Sudan, Indonesia or the Philippines – Scouts are ready for action, as Messengers of Peace!

استعد للعمل!

Transforming Society - Globally

Every Messenger of Peace project improves a community in the world, by filling the space that businesses and public services can't fill. When combined, every Scout hour volunteered through each Messenger of Peace project is having a profound impact at the global level too. Thanks to the Kingdom of Saudi Arabia young men and women around the world to ask what can I do for you, transforming society on a global scale!

Global Coverage

Global Coverage

In 1.5 million communities Scout groups around the world serve a total of 1.5 million local communities everywhere as Messengers of Peace. And every global project is pinned on the on-line map! There's so many projects, the map has had to be refreshed several times since 2013.

23.5 million

23.5 million

Just eight years on, over 23 million young people from all corners of the globe have rallied to the call. In USA, 2 million Scouts have joined the MOP network, in Indonesia, over 6 million. Thanks to one Head of State from the Arab world standing side by side with a Head of State from the Europe Region. It's OK to do good, it's the right thing to do. Be a Messenger of Peace! ... What a strong message!
